## College Admissions Flow Chart

Chattanooga School for the Arts and Sciences, Tennessee

**Topic:** Helping Students Navigate the Path to College

**Practice:** Assist With College Entry

Staff at the Chattanooga School for the Arts and Sciences (CSAS) use this flow chart to help students and parents visualize four available post-high school options: the work force, active military duty, college, or taking a gap year before deciding.

For students following a college track, the chart organizes the steps to successfully complete the college and financial aid application processes. Students can use this visual representation as a quick reference when questions or uncertainties arise.
